Use the knowledge organizer on the following page to make some notes based on the categories on the webpage. Stick to main ideas -- a few points for each category, with enough supporting details so that it makes sense to you when you read it later.

The "Calls to Action" are the action items that were recommended at the end of the Truth and Reconciliation Commission that examined the legacy of Indigenous Residential Schools in Canada. The Calls to Action are part of a larger set of reports that you may wish to consult if these topics are new to you. They can be found at <http://www.trc.ca>.

Use the chart below to identify five Calls to Action that you think relate most directly to self-government. Rank them in order of connection (the more direct, the closer to the top of your list). Explain how each of your choices relates to self-government.
